

Connecting a Garmin to the Wattbike Performance Monitor (WPM)

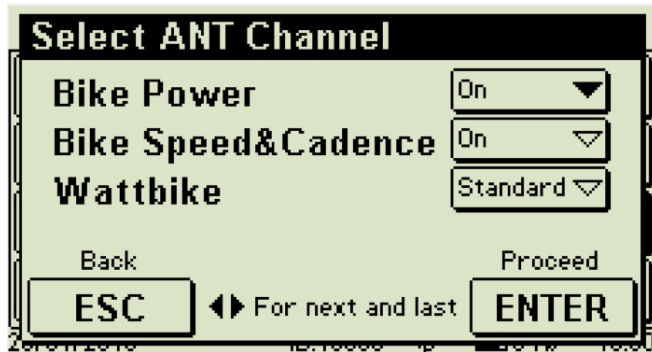

- Garmin 1000
- Garmin 520
- Garmin 910xt

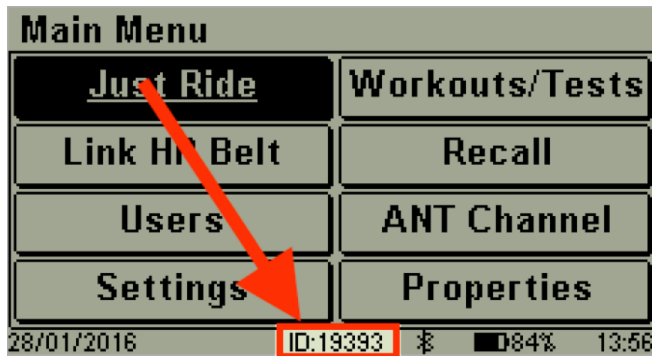

wattbike

Garmin 1000

- a) Turn on the WPM ensure it has the latest firmware installed and the ANT+ settings are set as the picture below (in ANT Channel):

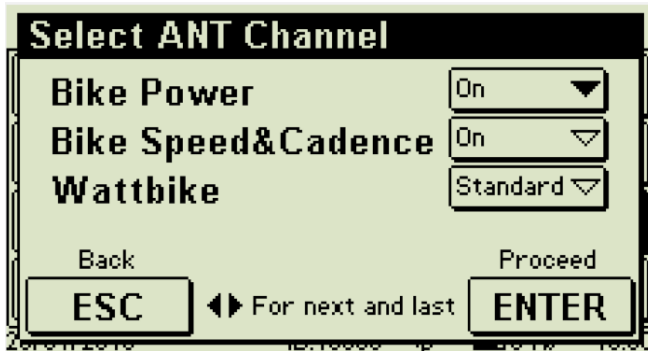

- b) On the Garmin: Tap settings, Sensors, add sensor and Search All
c) Tap on the sensors that match the ID number of the WPM - found on the bottom of the screen:

- d) Tap Add on the Garmin. The WPM should be paired with the Garmin.

Garmin 520

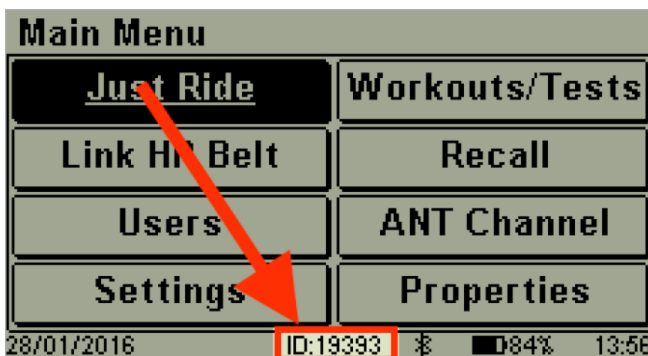

- a) Turn on the WPM ensure it has the latest firmware installed and the ANT+ settings are set as the picture below (in ANT Channel):

- b) On the Garmin: Menu -> Settings -> Sensors -> Add Sensor
Select an option:

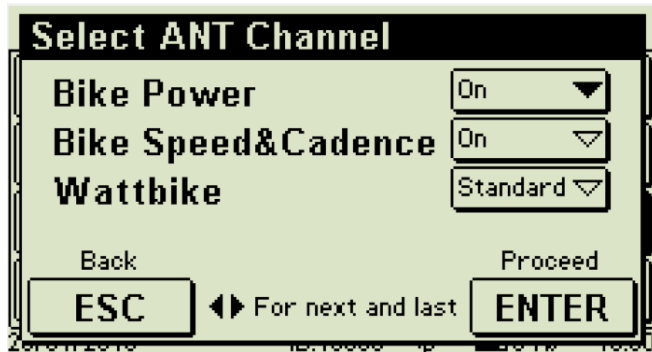

- Select the sensor type
- Select Search All to search for all nearby sensors
- **A list of available sensors appears**
- Select one or more sensors to pair your device
- Select Add Sensor

- c) The sensors should match the ID number of the WPM - found on the bottom of the screen:

Garmin 910xt

- a) Turn on the WPM ensure it has the latest firmware installed and the ANT+ settings are set as the picture below (in ANT Channel):

- b) Turn the Garmin on and switch into Bike mode:

- Settings-> Bike Settings -> Bike 1 -> ANT+ Spd/Cad -> Bike sensors present? (Yes) -> Search -> Soft pedal on the Wattbike -> (Watch should find the WPM's sensor) -> ANT+ Power -> Search -> Soft pedal on the Wattbike -> (Watch should find the WPM's sensors) -> Pairing complete.
- **The Wattbike sometimes may have to be in Just Ride for the Garmin to pick the ANT+ signals up from the Wattbike.**

INFO: If 'Multiple power sensors detected' displays on the watch there are other bikes in the area. You will have to input the sensor ID manually so not to incorrectly pair with another bikes sensor.

- c) Pairing manually-

ANT+ Spd/Cad

Settings-> Bike Settings -> Bike 1 -> ANT+ Spd/Cad -> Bike sensors present? (Yes) -> More -> Sensor Details -> Press ENTER and use the up and down arrow keys to find the sensor -> Pairing Complete

ANT+ Power -> Search -> Soft pedal on the Wattbike -> (Watch should find the WPM's sensors) More -> Sensor Details -> Press ENTER and use the up and down arrow keys to find the sensor -> Pairing Complete
